

Lancaster Small Animal Hospital

5156 Genesee Street • Bowmansville, NY 10426 • (716) 681-3033

In order to provide you with the best service available, the Lancaster Small Animal Hospital has instituted this Ferret Wellness Program for your favorite friend.

Ferrets make wonderful pets and are fun additions to any family. However, their anatomy and physiology make them unique in many ways. This makes their medical and surgical care a special challenge. For this reason, it is important to have your pet examined by a veterinarian at least once a year. Additionally, because illness is often masked in these species, routine laboratory tests are highly recommended on an annual basis. Basic screening provides especially useful information when first obtaining your ferret from a breeder or pet store.

FERRET WELLNESS PROGRAM PACKAGE

	Regular Price
Comprehensive Semi-Annual Physicals (2)	110.00
